THE SPIRIT OF EASTER.

ler, the Blind Girl.

Oh, give thanks unto the Lord, for he is good, and his mercy endureth forever. Sing unto him a new song, for he causeth the desert to put forth blossoms, and the valleys he covereth with greenness. Out of the night he bringeth day and out of death life everlasting. On this day a new light is upon the mountains, for life and the resurrection are proclaimed forever.

Easter is the promise of the Lord that all the best and noblest in man bloom and ripening shall not cease. The bars of winter are broken, and the iron bands of death are riven. The bird is on the wing, and the flight of the soul shall know no weariness. The lilies lift their holy white grails, brimmed with sunshine of God's love, for has not the Lord manifested his love in flowers and in the upspringing of green things? They are sweet interpreters of large certainties. Each year the winter cuts them down, and each spring they put forth again. Every spring is a new page in the book of revelation, wherein we read that life is an eternal genesis and its end is not, for it endureth for-

thoughts. The good man toils not for today nor for tomorrow alone, but because he knows that his labor shall survive long after his hand has fallen from the plow. The good man pours himself into the world and makes it new. He is among the blessed who win sight out of blindness, order out of chaos and life out of death. Since the first Easter morning the soul of man has shone with unwasting light, for then he looked into the radiant face of the risen Christ and knew that God's universe shapes itself not to destruction, but to a yet more glorious genesis-yea, it endureth from everlasting to everlasting. -Helen Keller in Youth's Companion.

Credibility of Evidence.

A French philosopher recently investigated the credibility of human evidence, using in the experiment twelve women and twelve men. The conclusion reached is that faithful evidence is the exception, every witness bolstershall be renewed, even as growth and ing up memory by imagination. Statements drawn out by suggestion from others are longer than voluntary ones and less trustworthy. Evidence, the experimenter thinks, improves by practice, an indication that the witnesses mean well, but do not know how to

Palms For Palm Sunday Are No Longer Imported. "The fact is not generally known," remarked a Washington florist, "that practically all the palms used on Palm Sunday in the churches of this city are grown in the United States. The common impression seems to be that the being the province of confectioners, but plants come from foreign climes. This, however, is a mistake. Years ago they did, but immense nurseries have been established in Philadelphia and about New York, where they are grown from seeds secured from Arabia and other tropical countries."

The second myth, as told by Dr. Gubernatis in his "Zoological Mythology," seems more likely to be the genuine. This legend says that when Indra. disguised as a famishing pilgrim, was dying for food the hare, having nothing to give him, threw himself into the fire that he might be roasted for his benefit, and the grateful Indra translated the animal to the moon.

There are several other reasons why the hare was chosen to symbolize the moon. One was that it is a nocturnal animal and comes out at night to feed; another that the female carries her young for a month, thus representing the lunar cycle; another that the hare was thought by the ancients to be able to change its sex like the moon, which as it waxed or waned was regarded

as masculine or feminine. Sir Thomas Brown says that this was weight of his authority in his "Natural History." The historian of "Vulgar Errors" devotes a chapter to the subject, but is extremely cautious in his dealings with it, considering it quite possible that such a change might take

FIRE INSURANCE.

The congregating of Negro homes in certain undesirable parts of the city, and the unkept and unsanitary conditions of a great many of our homes, has caused quite a prejudice and a ban to be placed upon a large number of Negro homes relative to the securing of fire insurance. Then, again, there are among us those who have homes that make them acceptable as risks for fire insurance who have never taken the opportunity to carry fire insurance. The contents of every home should be protected from the ravages of fire without regard whether you are the owner or a tenant. ODD THINGS ABOUT EASTER. All People Appear to Celebrate the

Spring Festival. All peoples appear to celebrate crack the shell of one of the eggs. The Easter in one shape or another, the one whose egg is broken forfeits the

reawakening of nature in spring. Though associated in this matter with the vernal equinox, it is, nevertheless, of its folk-lore has to do with the lunar orb in one way or another. The later. Council of Nice, in the year 351 A. D., decided that Easter Day should be the up to all sorts of tricks. Of course, first Sunday after the first full moon all eggshells are not alike. Some have following the vernal equinox, and if much more lime in them than others, the full moon fell on Sunday, then and the eggs of the guinea hean, or Easter Sunday was to be the Sunday The moon suggests a likeness to an egg, which is the symbol of harder than ordinary hens' eggs. "PICKING" EGGS.

Eastern Story That Is Still Greatly Enjoyed by the Boys.

"I see the shop windows full of all sorts of pretty things that betoken the approach of Easter," said Mr. Snoggleton, "but none of the displays attracts me so much as that in a Main street window which is largely devoted to dved eggs and dves for coloring easter eggs. 'Picking' eggs was the popular sport with the boys. It was not altogether as harmless a form of gambling as fond parents usu-

ally imagined. The process is simple. testants must first be provided with the requisite number of hard boiled usually dyed in gay colors. Sometimes we used to be able to buy real dyes and boil the eggs in them, but the popular method in the little town where I was raised was to get all the scraps of gay colored calico that could be obtained, wrap each egg carefully in the calico and boil it. This would result in transferring the pat tern of the calico to the egg, and the gaudier the colors the better we liked which are made for the negro trade in North, but they were just the things lamb?" we asked.

When he became old he did not die, but was turned into a butterfly, which is called in that country by his name. Tukuihu used to search for eggs in the nests of the sea birds, and when he lost his human form the chiefs who wished to succeed him agreed to search for a certain number of eggs, and the first to collect them was appointed king. It seems singular that eggs without any especial significance should have been so important on Easter island.—Chicago Inter-Ocean.

An Easter Parable.

Once in a sheltered garden there bloomed a beautiful flower so sweet and pure that the south wind forsook all other spots to sweep ceaselessly. caressingly around it, whispering soft words of love. But one day the flower faded, nor

could the south wind with warm kisses revive its drooping head. Then came the gardener through his garden, who, seeing the dying

flower, plucked it from its stem and, tearing out its golden heart, buried it deep in the black earth.
"Cruel, cruel man!" shrieked the south wind, because it understood not.

All winter long the cold white snow over it the south wind sobbed its rage at the pitiless gardener. But when the spring came, behold,

the flower arose, more beautiful than And the south wind, understanding, kissed the bronzed cheek of the gar-

dener in joyous penitence. For kind of heart is the gardener of the universe, though man, foolish and fickle as the south wind, understands him not, and, as one who loves all growing things will stoop to brush a little blemish from the humblest flower, so stoops he to remove the smallest sorrow from the tiniest blossom in his great garden of light petaled stars.

Elopements a Specialty.

James Whitcomb Riley says that the most amusing "character" that ever came within his personal observation was a Squire Roberts, of Lapeer, Mich. Although the Squire was, according to the letter-heads on his stationery, a justice of the peace, he made additional claims to fame in that he advertised himself as "the original and only exclusively matrimonial, Gretna Green, magistrate." Also, the squire announced on his stationery that his office was in the First National Bank Building, "or wherever most convenient to swains," and he made the further assertion that A fine line of high-grade bridesmaids and groomsmen" were "constantly on hand to assist at the services." Zorn Kept His Word.

In the marriage of Robert Zorn, son of Philip Zorn, a millionaire brewer of Michigan City, there has come to light a romance. Nineteen years ago a daughter was born to Mr. and Mrs. Jacob Kneller and young Zorn said he would marry her when she became old enough if she would consent. The baby girl, christened Florence, became set in a conspicuous place, to attract one of the social favorites of the city, and Zorn, though twice her age, be came an ardent suitor and won a

A second attempt to destroy a "blind tiger," conducted by Arch Yazel at Elnora, Daviess county, was made last week, and was successful. Not only was Yazel's place wrecked, but property adjoining and of aggregate value of \$20,000 was destroyed. Dynamite was used. A similar attempt made some time ago was only partially successful, and Yazel quickly repaired the damage and began again the sale of intoxicants, against the protest of the temperance element. No Marrying in Indiana for a Week. County Clerk Davis, of Indianapolis, discovered that there will probaly be a brief period in the history of Indiana, during which no marriages can legally be solemnized. Section 2 of the marriage law, recently enacted, done by the cold wave in the last few says: Applications for license to days will be considerable. While most marry shall be uniform throughout the State, and it is hereby made the duty of the State Board of Health to furnish a form therefor to the several clerks ation of the cold will have the effect at once upon the approval of this act; provided, that said board of health hay revise said forms so furnished from time to time as may be advis able.

The State Board of Health can not send out a form till acts are promulgated, and it will require at least three or four days after their receipt for the various clerks to have a supply of forms printed. The acts will probably be promulgated April 18, and the chances are there can be no marriages in Indiana that week. The State Board of Health and the attorney general admit they can offer no consolation to those who intend to wed that week.

THE ENTRY OF JESUS INTO JERU-

SALEM. John xii, 12-26. 12 On the next day much people that were come to the feast,

they heard that Jesus was coming to Jerusalem 13 Took branches of palm trees and went forth to meet him and cried, Hosanna, blessed is the King of Israel that cometh in the name of the Lord.

14 And Jesus, when he found a young ass, sat thereon; as it is writ-

15 Fear not, daughter of Sion; behold, thy King cometh, sitting on an

ass' colt. 16 These things understood not his disciples at the first, but when Jesus was glorified, then remembered they that these things were written of him, and that they had done these things unto him.

17 The people therefore that was with him when he called Lazarus out of his grave and raised him from the dead bare record.

18 For this cause the people also met him, for that they heard that he had done this miracle 19 The Pharisees therefore said

among themselves, 1 erceive ye how ye prevail nothing? Behold, the world is gone after him. 20 And there were certain Greeks among them that came up to worship

at the feast. 21 The same came therefore to Philip, which was of Bethsaida of Galilee, and desired him, saying sir, we

would see Jesus. 22 Philip cometh and telleth Andrew, and again Andrew and Philip tell Jesus 23 And Jesus answered them, say-

ing, the hour is come, that the Son of man should be glorified. 24 Verily, verily, I say unto you, except a corn of wheat fall into the ground and die, it abideth alone; but

if it die, it bringeth forth much fruit. 25 He that loveth his life shall lose it, and he that hateth his life in this world shall keep it unto life eternal. 26 If any man serve me, let him follow me; and where I am there shall also my servant be; if any man serve me him will my Father honor.

Golden Text-Blessed is he th.t ometh in the name of the Lord.— Matt. xxi, 9. THE LESSON APPLIED.

I. Desire to See Jesus-Not only the Greeks of verse 20, but the multitudes in attendance at the Passover Feast (verses 12, 13) were eager to see him. No wonder. He went about doing good with a power and love and wisdom such as no mortal had ever shown. To see Jesus has been the desire of millions of people from that day to the Men and women, boys and girls, whose eagerness we little suspect, are to-day desirous of being brought by us to Jesus. Strange that our Lord's disciples should ever hesitate to bring seeking souls to the Savior! The planning for the triumphal entry was done by Jesus himself, not by Peter or John or James, as we might have expected. The solicitude of these Greeks to see Jesus was not properly met. Similar tardiness is one the strange phenomena among Christians to-day. They fear that those who have not met Jesus do not want to meet him. They are afraid of being turned to ridicule after ineffectual en-

II The Ways of Bringing People to Jesus are as numerous as the people to be brought. This multitude came to greet him with songs on their lips and palms in their hands. The Greeks came quietly to the disc.ples and asked for an introduction. Agonized relatives from all over the land had eagerly brought their sick to Jesus. It matters not how men come if only they

III. It Is a Hopeful Sign to Inquire About Jesus—Those who really long to know him will surely find and learn to know him. When individuals begin to inquire after Christ and his teaching in sincerity of purpose, then is their

salvation not far distant. IV. The Words of Jesus-Our Lord's teachings are singularly uniform. The whole duty of man as expounded by Him is to love the Lord his God with all his soul, mind and strength, and his neighbor as himself; the religious power that men have is always rived from the Savior himself, the duty of men is always that of sacrifice.

To-day set apart a little while to count your Easter blessings. THE LESSON TESTED. The Multitude. Ver. 12-18. On the next day after what did the

Manners as a Business Asset. As a rule, business does not adapt itself to manners, but manners often play a most important part in an individual's success in business life. It was said in the case of General Ambrose E. Burnside that "matchless manners" made an army commander and a United States senator out of an obscure tailor's apprentice. Burnside had ability, but manners paved the way to opportunity when ability could

A youth who expects to rise on a capital consisting solely of manners will get an early fall down. Society polish, the knack of posing, of shaking hands properly and the gift of flattering speech pass current in drawing rooms. No one objects to them in business haunts providing that they are not

An all around easy manner is the best asset for business, and that comes from sympathy and self control. Time will cure the awkwardness of the plowboy or the apprentice if he has "something in him," if he sees through the situation and fits in. The basis of good manners is self respect. He who re spects himself will respect the rights, the feelings and the opinions of others. On the other hand, a selfish regard of self cannot be covered up by a veneer of politeness. Manners put on and off for occasion are easily seen through, and the man behind them is stamped as superficial. Business is largely a matter of confidence. A man to succeed must be genuine to the core, and be a sample, not an imitation.

A Considerate Judge. A Kentucky congressman tells of a considerate judge in his state who

passed sentence on a man convicted of murder. The judge said: "Mr. Dodson, the jury says you are guilty of murder, and the law says you are to be hanged. It is my wish that

Dodson. At what time, sir, would you like to be hanged?" The prisoner made answer that it was a matter of indifference to him

and that he was prepared to be swung off at any time, The judge continued: "Mr. Dodson, it is a serious matter to be hanged. It can't happen to a man but once in life unless the rope should break before the neck is broken, and you had better take all the time you can. But since it makes no difference to you you may hang four weeks from today at 12 noon, but you may have a good dinner first."

The First Astor and the Poet. John Jacob Astor and his son rigidly attended to business in the same office a little one story building in Prince street, just east of Broadway. Their constant companion there was Fitz-Greene Halleck-Marco Bozzaris Halleck. Halleck became a clerk for Astor in 1832 and worked seventeen years. The employment, he himself said, was not "profitable, but permanent." Astor warned him when he began not to talk to any one of his wealth. The two men became great friends. Halleck spent months with his patron at his country seat and became one of the trustees of the Astor library. The poet frequently rallied the old man on his wealth. 'Why, Mr. Astor," he would say, "if I had \$200 a year and was sure of it I would be content." The great landwill, much to the amusement of bohemian New York, left Halleck an annuity of \$200.-Burton J. Hendrick in

The Chilly House of Commons. A speaker in the house of commons

has to address "the most chilling, nerve destroying audience in the world." Even such a cool headed, seasoned orator as John Bright once said, toward the end of his career, too, "I suppose I ought to be ashamed of myself, but the without a trembling at the knees and boasted that he had no nerves, declared: "The blare of trumpets, a thousand lookers on, have induced men to lead a forlorn hope. Ambition and one's constituents have induced men to do a far more desperate thingspeak in the house of commons."-London Mail.

Going to Bed In India.

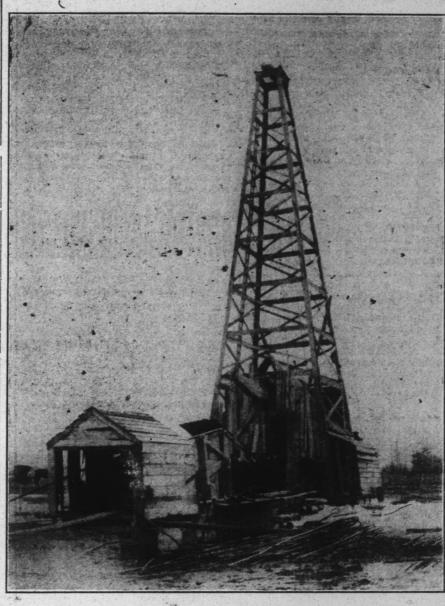

Going to bed in India is a very dif-1 ferent process from going to bed at home. To begin with, it is a far less formal process. There is in the hot season no shutting of the door, no cutting yourself off from the outer world, no going upstairs, and, finally, no getting into bed. You merely lie down on your bed, which, with its bedding, is so simple as to be worth describing. The bed is a wooden frame with a webbing laced across it. and each bed has a thin cotton mattress. Over this one sheet is spread, and two pillows go to each bed, bolsters not being used. That's all. Some people do not even have the mattress, preferring the coolness of a piece of fine matting.

Crimes Against Animals. "The cooks of today," wrote Yuan Mel, a Chinese author of the nineteenth century, "think nothing of mixing in one soup the meat of chicken, duck, pig pigs and geese have doubtless souls and these souls will most certainly file plaints in the next world of the way they have been treated in this. A good cook will use plenty of different dishes. Each article of food will be made to exhibit its own characteristics, while each made dish will be characterized by one dominant flavor. Then the palate of the gormand will respond without freak and the flowers of the soul blossom forth."

Guards Posted Outside Keep Up Fusillade Which Keeps Awakened Citizens Indoors

Churubusco, Ind., Special: The private bank of O. Gandy & Co., known as the Exchange Bank, was robbed of \$6,850 Thursday morning at 3 o'clock. Three charges of nitroglycerin were

necessary to wreck the huge safe. The first explosion was so terrific that it awakened several families in the vicinity and when they attempted to learn the cause of the noise they were driven back into the houses at the point of rifles and shotguns.

The doors of the vault on the inside of the safe were more difficult to force and two explosions were necessary to gain a second entrance. One robber stood on guard at the home of Oscar Gandy, owner of the bank, who lives three doors north, another stood in front of the home of Elmer Gandy, cashier, who lives one block south. Mrs. Oscar Gandy came out of the

house to investigate and received a bullet in the neck, making only a small flesh wound. Mr. Gandy started to come out and Mrs. Gandy was told by the robbers to keep him in the house or "we'll blow his head off." He then went out at the back door and took several shots with a small 22-caliber

Later developments show that there were seven men implicated in the affair, and that thy were undoubtedly ad-

vised by local talent. After blowing the safe the robbers divided the money in the bank and part of the gang went north and a part of them south. The robbers who went South were pursued by three local citizens to Huntertown, and then to the Ohio State line. Nothing was known of the part of the gang that went north until nearly noon Thursday, and no "them has been found. A horse and buggy belonging to George Hammick was used by the robbers who went into Ohio.

The outside guard at the bank wore a mask, and was of average size, and it being on a street without lights, no description of them can be given. People living near the bank were panicstricken and unable to do anything.

In cleaning up the rubbish in the interior of the bank \$2,000 in bills was found under the safe door that had been overlooked by the robbers. dinarily the safe contained from \$25,-000 to \$30,000 in cash, but on account of several deals by the owners within the past few days the funds were low.

INDIANA MAN QUITS JOB.

Ubero Disgusts Treasurer Middleton, and He Resigns.

Boston Special: David A. Middleton, formerly deputy postmaster of Logansport, Thursday resigned as treasurer of the Boston and Consolidated Ubero Plantations, the concerns which, through their disputes of stockholders, are now undergoing investigation in the office of the attorney general of the postoffice department. He declares that he could no longer bear the stigma of being connected with the com-

The Postoffice Department Thursday received a letter from United States District Attorney Melvin O. Adams, of Boston, in whose hands any action under the Massachusetts law would rise. Adams declares that his investigation satisfies him that the Ubero companies' difficulties are not such as would justify him in interfering. He believes they were caused by quarreling stockholders, rival sets of whom are seeking to gain control of the \$5, 000,000 properties. He adds that the officers are all men of high standing and thoroughly responsible. This letter will probably preclude the issuance of an order appealed for by a Woburn minister.

Middleton succeeded E. H. Nebeker as treasurer of the Ubero companies. Nebeker's daughter married F. L. Torres, a Cuban, who was the first manager of the Ubero plantations founded by W. D. Owen, former Secretary of State of Indiana.

WHITES SLEEP WITH BLACKS.

Arkansas Penitentiary Affairs in Fearful Condition.

Little Rock, Ark., Special: The sub-committee of the House committee appointed to investigate the penitentiary submitted their report on the convict farm in Lincoln county.

The committee found the convicts in one of the stockades very poorly clothed, with poor sanitary condition. no means for bathing, and the whites and blacks forced to sleep together in dirty beds. The principal medical attention is from a convict who was a telegraph operator at the time of his conviction, and knows nothing of medicine except what he has learned since. The punishment on the farm is severely condemned, the men being whipped unmercifully. The committee recommends an appropriation for a hospital and bathouse, also that whites and blacks shall be kept separate in the hospital, and that negro men be prohibited from guarding white men.

HOLD BEEF TRUST SECRETS.

Seven Trunks Seized by Federal Officers at Chicago.

Chicago Special: Seven big trunks, said to contain secret records of a private set of books of the beef combine, were seized by the United States authorities at the National Safe Deposit Company Tuesday evening, and taken under guard to the Federal offices in the Monadnock building.

The trunks were secured on an order issued by District Judge Landis against Daniel Peckham, secretary and manager of the safe deposit company. A witness on the stand, whose identity is carefully guarded, is said to have betrayed that certain members of the beef combine collected incriminating records, books and correspondence and stored them in the trunks in the safe desposit vaults on March 23. three days after the grand jury began investigating the meat industry.

Woman Fed Him and Then Used Raw-

Washington, N. J., Special: Mrs. Elizabeth Emory, a comely widow who owns a boarding house here, has no fear of tramps. For some time they have been making themselves sive to the neighborhood in which she resides, and Thursday one visited at her door and asked for his breakfast.

Mrs. Emory made a deal to provid him with a breakfast if he would spilt kindling wood for an hour. The tramp agreed to this contract, and was given something to eat. On finishing the meal he refused to do the work, and, laughing at the woman, left the place

Mrs. Emory put on her shawl, and, hiding a rawhide whip under it, started in pursuit of the shirker. She found him in the center of the town, and demanded that he return. The tramp laughed at her again, and the woman quickly drew forth the whip and commenced to lash him with it until he begged for mercy. On reaching the house Mrs. Emory gave him a bucksaw and stood over him for two hours while he worked.

FIVE NEW COUNTS RETURNED BY GRAND JURY.

SET FOR

Kansas Senator and Former Indianian Is Charged with Receiving Fees Irregularly.

St. Louis Special: United States Senator Joseph Ralph Burton, of Kanwas reindicted by the Federal grand jury Thursady on the charge of accepting fees to the amount of \$17,000 from the Rialot Grain and Securities Company, of St. Louis, in whose behalf is alleged he acted as an attorney before the Postoffice Department at Washington. The new indictment contains five counts. The first three specify that Senator Burton made an agreement to accept \$2,500 to look after the interests of the St. Louis concern. Count No. 4 charges that he received a \$2,500 fee, and No. 5 an additional fee of \$500.

Recently the United States Supreme Court reversed the case of Senator Burton, who was convicted of unlawfully accepting fees from the Rialton company on the ground that the money he received was not paid according to the evidence in St. Louis, and hence was without the jurisdiction of the St. Louis Federal Court. The new charges contained in the indictment set forth that Senator Burton received \$3,000 and made the agreements referred to in counts Nos. 1, 2 and 3, while in St. Louis. District Attorney Dyer said Thursday that the retrial of Senator Burton would take place some time in May.

FINE WHEAT OUTLOOK.

Corn Has Been Planted in the Southern States.

Washington Special: The following a summary of the weekly crop bulletin issued by the weather bureau Tuesday, the first for the season:

Preparations for planting corn have been active under favorable soil conditions in the central valleys and have begun in the southern portion of the lake region. A large part of the corn area in the Southern States has been planted and much is up to good stands. Planting is now general in Kansas and Missouri and has begun in Kentucky and southern Illinois.

All reports indicate that the outlook for winter wheat throughout the country is unusually fine and that the crop has made satisfactory progress since the previous issue of the weather crop bulletin April 1. In California the condition of crop is excellent in all sections and the heaviest crop in years is

The seeding of spring wheat is well advanced over the southern part of the spring wheat region, being nearly completed in Nebraska and portions of southern Minnesota and South Dakota. finished in Iowa and in these States the early sown is coming up well. In the northern portion of the spring wheat region delay in seeding was caused by the rains of April 1 and 3, and subsequent freezes. In Washington, seeding is well advanced and the early sown in both Washington and

Oregon is coming up nicely. Oat seeding is largely finished in the States of the lower Missouri valley, and is well advanced in the upper Mississippi and Ohio valleys, seeding having begun in the upper lake region. Excellent germination is generally indicated, and the situation respecting

this crop is very promising. Very little cotton has been planted in Alabama, Mississippi and Louisiana, but planting is becoming general over the southern portion of the eastern districts and in Texas, where germination has been rapid. Preparations for planting are unusually backward in the lowlands of Louisiana and Arkan-

sas. In the central valleys and middle gulf States the outlook for peaches is poor, and the frosts of the 7th and 8th lessened the prospects in the South Atlantic States, and in the southern portion of the middle Atlantic States. Farther north to the eastward of the Mississippi river, peach buds have not been sufficiently advanced to sustain serious injury. For most of the other fruits the prospects are encouraging.

Women Use Tar and Feathers.

Hudson, Mich., Special: A beautiful oung woman giving the name of Mrs. May Post recently came here and lived alone part of the time. The allegations that well known men were fre quent callers gave rise to gossip. Officers paid no attention to the talk. Finally several women informed the newcomer that she must leave the city within a certain time. No attention was paid to this, except that a supposed husband suddenly appeared on the scene. Then a party of fifteen women and four men went to Mrs. Post's quarters and gained admission When the stranger tried to interfere the men told him he had better go into another room and keep quiet. He did so. The angered women then ordered Mrs. Post to remove her garments. and, despite her tears and pleadings, they applied a thick coat of warm tar on top of which they sprinkled an abundance of feathers.

GNAWED HOLE IN SHEE

AND SAW BROTHER COMMIT CRIME, SHE SAYS.

MEN ARE INDICTED

In West Virginia for a Murder Committed Over Twelve Years Ago.

Charleston, W. Va., Special: John Lyons and James Moore, brothers-in-law, have been indicted by the Clay county grand jury for the murder of Henry Hargis, which is supposed to have occurred 12 years ago. Hargis disappeared and was believed to have been murdered for his money. The years passed on and the incident was almost forgotten until brought to mind by another murder and what grew out

About four years ago Mrs. Lacy Ann Boggs, 84 years of age, who lived in the neighborhood of Moore and Lyons, quarreled with Mrs. John Lyons, and when angered said she could light her pipe and before it burned out could go to the place where were the ashes of Henry Hargis. A few nights afterward she was shot in the back as she sat at her fireside by an assassin, who fired through the window.

A few weeks ago Mrs. Lyons, friend, Mrs. Harvey Samples, and her brother, a boy named Fred Moore were arrested for the murder of Mrs Boggs. In getting up the evidence against them that threat made by Mrs Boggs was recalled and that brought up the whole Hargis story again.

A young detective went to work on the case and soon found out that Caroline Moore, a sister of James Moore had also been talking. What she said recalled that a little girl, living at Moore's house at the time Hargis disappeared, had told a story about Moore and Lyons bringing something to the house in a sheet and putting it under

The child is now a grown woman No attention was paid to what she said. When the detective learned of it, however, he thought enough of it to search under the Moore house. There he found what appeared to have been a grave, and in it he discovered bits of bone that seemed to have been burned. tufts of hair, collar and cuff buttons, the latter bearing the initials of Hargis, and a small pocket whetstone with the missing man's name.

The case came before the grand jury and among other witnesses was Caroline Moore. She broke down and told all she knew. She said she had been wrapped up in a sheet by her brother and Lyons so she could not see, and that they had then left the house. Presently they returned, but in the meantime she had gnawed a hole through the sheet so she could see, and she saw them bring in the body of a man wrapped in a sheet. They buried it under the house

The \$300 Hargis had when he disappeared was given him by his mother, who received \$1,600 pension money. It was afterward learned that she had procured it by fraud, and pressed with it she confessed and led an officer to where she had buried \$800. This was recovered for the government, and Mrs. Hargis was sentenced to a year's

term in prison, which she served. and related to the Breathitt county family of that name. This sensation coming along with that of Mrs. Leggs having been convicted and sentenced to death for the murder of her husband has worked the usually quiet county of Clay up to a fever heat of

GLADDEN'S PARTING SHOT.

Washington Gladden Hears of Acceptance of Rockefeller's Gift.

Columbus Special: "The pirate or the train robber may bring hi; booty to the treasury of the American board and it will be thankfully received, and if sufficiently large will be described as a 'magnificent gift.'

This parting shot at the prudential committee of the American Board of Commissioners for Foreign Missions was fired Thursday by the Rev. Washington Gladden, when he was informed that the committee had taken final action accepting the Rockefe. or, gift of

"By the decision," continued Dr. Gladden, "the prudential committee reects the word of Him who said, 'I reverses the ethical judgment respecting the rewards of iniquity which has guided Christendom hitherto. It open y proclaims that money to which the giver has no moral hight may be right fully given to a missionary society if only his motive is to do good with it, and it assumes the power of judging the motive of the giver. It knows and declares to the world that there can he no motive but that of benevolence in the bestowal of this gift.

"That is a great testimony from such a high authority. From this decision the appeal will now be taken to the conscience of the Congregational churches and the conscience of Christendom.'

CZAR'S FAMILY IN COFFINS.

Shadow Picture in Russian Paper Hints Death to Romanoffs.

St. Petersburg Cable: A sensation was caused here by the appearance in the Neva, the most widely circulated illustrated weekly in Russia, of a halftone picture representing the imperial family, including the empress holding the heir to the throne, the background of the picture showing in shadowy outlines the emperor, Grand Duke Serguis, Grand Duke Alexis, the dowager empress, the heir to the throne and practically all the living members of the Romanoff family lying dead in

their coffins. The work is done so skillfully that in the shadows in the drapery behind, the imperial family are discernible with great difficulty. The publishers disclaim any previous knowledge of the shadowy figure. The culprits, who were students employed on the paper, have not yet been located.

Paul Jones' Body Is Unearthed.

Paris Cable: Workmen who have for months been searching for the grave of John Paul Jones, the naval hero of the American revolution, have discovered the body, and the highest medical experts of this city Friday identified it as undoubtedly that of the famous admiral. The body is in a good TRAIN WAITS TO SAVE BABY.

amp in Its Incubator Broken-New One Found.

Muscatine, Ia., Special: A little less than three pounds of very delicate humanity, in a baby incubator, caused commotion quite out of proportion to its size on an eastbound Chicago train. The father of the miscroscopic infant was taking it to Chicago in an incubator, that it might receive care in an institution there.

Shortly before arriving here the lamp furnishing the heat for the incubator was accidentally broken. It was night, and cold, and the frightened father gave an immediate alarm. If the temperature should fall a few degrees the baby would die.

Finally William Laventure, unmared, a representative of the general passenger department of the Rock Island, shouldered his way through the crowd, along with the train conductor, and announced that the train would be held at this city until a new lamp could be found. It was a half hour late as a result when it left, but the lamp had been found and baby was sleeping in its requisite 96 degrees Fahrenheit.

ENGAGEMENT IN CHINA SEA

Cannonading Continues for Three Hours, According to a Rumor from Hong Kong.

Hong Kong Cable: It is reported that a fight took place late Sunday in the China Sea between the Japanese and Russian scout cruiser divisions in which considerable damage resulted to both combatants. The fighting, which was preliminary to the general engagement now imminent, is said to have lasted for nearly three hours.

Up to the present time neither particulars of the fighting nor absolute confirmation is obtainable., St. Petersburg Cable: There is no

information from Vice Admiral Rojestvensky's squadron, but the admiralty would not be surprised to learn of skirmishing between scout ships and the inauguration of torpedo boat warfare soon is not unexpected.

The naval organ here expresses the opinion that Togo was taken completely by surprise when Rojestvensky suddenly appeared at the entrance of the China Sea and is now concentrating his widely scattered fleet near the Pescadores, where it is believed a ea fight probably will occur.

The presence of the Russian squadron off the Annam coast is arousing keen interest in view of the possibility of its infringing Chinese neutrality and of the likelihood of Rojestvensky having had to split his squadron. The ondon Morning Post's correspondent at Shanghai telegraphs that China has instructed the governors of the southern provinces to maintain strict neutrality in view of the possibility of Russian ships sheltering there.

President Announces That He Will Avoid Hand-to-Hand Encounters with Grizzlies.

Newcastle, Colo., Special: President

Roosevelt has killed his first bear. He

and a party of guides made an early start Saturday morning, the President riding on a small white cow pony. A few miles from the outskirts of the town the guides came across bear tracks and the party hurried Finally they caught up with the bear, which was being worried by the dogs. President Roosevelt tried in vain to get a shot at it with his rifle, but the dogs were in the way. He circled about the bear several times, but at last he gave it up and dismounted. Drawing his revolver he approached

for the first day's work. After taking off the pelt the President and party returned to the cabin for luncheon The President and his party reached this famous outfitting point for the hunting and fishing grounds on White river at 7:50 a. m. Saturday and waited more than two hours for official mail that had been sent to Redstone, where it had been intended that the seat of government should be established while the President was

the bear and shot it dead. It was not

a very large one, but it was big enough

away in the mountains hunting bear and other game. Before starting the President an nounced confidentially that he was not going into any hand-to-hand encoun ters with grizzlies nor strangle any mountain lions with bare hands. He does not expect to bag a record-break ing amount of game, and will feel sat isfied if he gets one bear during the hunt, and particularly fortunate if he gets two. His rapid-firing rifle was exhibited with great pride as a protection he will constantly keep between himself and danger.

The parade planned to take place here Saturday did not materialize. It had been arranged to form a procession led by the Miners' Brass Band, a caged bear and the President's party on horseback. This pageant was to pass through the village streets and into the hills where the bear was to be turned loose and given a start of thirty minutes. The State Humane Society broke up the plans on the ground that the bear might return to the village and carry off some children. It had been caged so long that it was vicious. After the humane society had interfered the captors of the bear tried to sell it to the guides, but they said they would take their game wild, as domesticated animals had no attractions for the President on an occasion of this character.

BAPTISTS TAKE \$200,000 GIFT. Fund from John D. Rockefeller Is Re-

ceived Without Protest.

Boston Special: A gift of \$200,000 from John D. Rockefeller to the American Baptist Missionary Union was announced Tuesday by Treasurer Charles W. Perkins, at a meeting of

the executive committee. Half the amount was received last Friday and the receipt of the donation was made public at that time. At the meeting Tuesday Treasurer Perkins said that an additional \$100,000 from the same source was at its disposal, to be used exclusively for the construction of mission buildings in foreign lands. This money will be available whenever the demands of the work contemplated require it. Neither gift the treasurer stated, was voluntarily contributed by Mr. Rockefeller, both having been solicited by officers of the union, who were desirous of raising funds to meet the growing needs of the work in which the union is engaged. Mr. Perkins made the follow-

ing statement after the meeting: "No action is ever taken in regard to the acceptance of gifts, and usual course has been adopted in this instance. No one suggested that the gift ought not to be accepted. Everyone seems grateful for such a generous contribution."

THE CROP REPORT.

Shows Most Remarkable Condition for Crops.

Washington Special: The government crop report for April shows: Condition of winter wheat, 91.6, compared with 82.9 in December, 1904, and 15.1 points higher than April 1 last year. It compares with 97.3 in 1903 and 83.1 as the ten-year average. It suggests a crop of more than 485,000,000 bushels, or 152,000,000 bushels more than harvested last year, It gives

Kansas 101,000,000 bushels. It is the most remarkable report ever issued in April, as the condition improved 8.7 points from December. The condition for April has only been exceeded four times in eighteen years. The only year of late that can pare favorably with this was 1903, when the condition was 97.3, or 2.4 under the December showing. The estimated yield in April, 1903, was 559,000,000 bushels, and the final yield 401.1000.000 bushels, there being a loss of 1,226,000 acres from the 34,072,000 acres seeded in the fall of 1902. This year the acreage is 31,155,000, and so far as known there has been little or no loss from winter killing.

Charges Made That Defendants Tampered with Witnesses-One Is Attorney.

Chicago Special: Four men, three of whom are employes of the Schwarzschild & Sulzburger Company, and the other an attorney for that corporation, were named in an indictment returned Thursday afternoon by the grand jury which is investigating the beef trust It is charged that the four men ob structed and empeded Deputy Marshal A. A. Bach in his efforts to serve a subpena upon Edwin B. Fish, a clerk employed by the company, who recent ly returned from Canada.

The men indicted are: Joseph Weissenbach, attorney for Schwarzschild-Sulzburger Company; B. S. Cusey, traffic manager for the company; George D. Hopkins, auditor for the company; Leo S. Joseph, employed in the provision department of the concern. The indictment alleges that a subpena was is sued for Fish on March 3 and that it was given to Bach for service, that the four men had arranged for the departure of Fish from this country to Canada and assisted him in leaving the jurisdiction of the court.

Attorney Weissenbach, who was for several years an assistant to Covernor Deneen when the latter was State's attorney in Chicago, declares that it was at his instance that Fish returned from Canada and agreed to go before the grand jury. This is not denied by the government officials. Weissenbach also declares that he has never seen nor spoken to Hopkins, never spoke to Cusey concerning Fish, and asserts that Joseph was never in any manner

interested in the matter. The men were taken into custody shortly after the return of the indiments, and were released in bonds of \$1,000 in each case.

ST. ANTHONY'S FALL.

An habitue of the track, a lawyer by profession, sat in a poolroom uptown ne day last week and figured it out that St. Anthony was sure to win in the second race out on a Western track. After he had put down all the money he possessed on his favorite he went out and got busy with folk who work with white aprons on.

Before the race was started, however, he was back in the poolroom The man at the blackboard began calling pretty soon. Seven horses were in the race. The telegraph keys rattled and the caller shouted "St. Anthony in the lead, King of Jocco second, Willie B third." Then there was a pause. Again the stentorian voice of the man at the instrument resumed his efforts. "St. Anthony in the lead by 50 yards"—and so on. Then at the three quarters and in the home-stretch St. Anthony was still ahead by yards. The lawyer got excited. He saw wealth immediately ahead of him.

body was invited to have a drink. The pause which preceded the final call was painfully long. The caller re-"King Jocco first, Willie B second, Sallie Jane third." He looked at the lawyer, whose face by this time was a pathetic one. He had not mentioned St. Anthony in his last call. He would, though. "Ah, St. Anthony fell," he said, somewhat apologetically. In-

stantly the lawyer was on his feet. "Sir!" he exclaimed. "By all that is beautiful in romance and by all that is truthful in history, I say that St. Anthony did not fall," and that was all. "I don't know a horse race from a skyscraper," interpolated the clothing house drummer, "but I got my start through a mistake of a poolroom clerk. It was a freak chance and it came my way, landing me in the list of depos itors whose checks are always paid. "Three years ago I was 'touring' the West and paying excess baggage on

sample cases. Up in Nevada a prospector offered me a half interest in a mine for \$1,000, and an old storekeeper told me it was a Jim dandy investment. Now, I didn't have \$50, but asked the old miner to wait. "Three days later I was in San Francisco and wired to the house for

an advance of \$1,000 and got fired. I had \$20. "Well, that evening there was to be a prize fight in town, and I hung around the poolroom in the afternoon, where they sold tickets on horse races and fights. That's where my luck appeared. One of my drummer friends tipped me to play a short-end fighter-\$10 to \$6. I handed the poolseller a ten-spot, giving him the name of the pug. It happened that races were on that afternoon, and one of the entries was the same name as a prizefighter I wanted to bet on. This nag was a 100 to 1 shot. The pool man gave me a ticket on the horse instead

of the fighter, and the nag won. "And, by cricky, the shortender won the fight, too. Next day I went in to cash my ticket, and the man handed me \$1.010. "I bought in on the mine and she

has paid more than half a million.' "What was the name of the horse?" he was asked. "I've forgotten," he replied. "Why burden one's mind with names?"

If Pittsburg Phil had lived until this immer his friends say he would have started an institution somewhat similar to a life insurance company, only fifty times more liberal. His scheme was to establish a clearing house for stable boys, poolsellers, race track starters and the like. He would com-pel his customers to make deposits daily, report concerning their conduct, tell of their winnings and failures.

He was to allow each person \$5 a day for individual expenses. The bank was to pay board, laundry bills and street car fare. Each depositor was to play tips given him before each race. If he won he was to plank his winnings before the cashier. At the end of a year there was to be a settle-Cleveland, called together Thursday! The plunger was to have assumed

PHYSICAL CULTURE WITHOUT A TEACHER

How Simple Exercise Develops Grace and Beauty of Form.

Physical culture teachers who turn their ttention to writing, generally find a way to develop the body without the use of expensive apparatus. In fact, the bed room furniture will be all the assitance one needs. The statement that a perfect figure can be acquired in five minutes sounds tempting, and if you want to try the experiment of devoting just that wee bit of the day to acquiring a better figure than the one nature gave you, the task is simple. But pray do not expect results in one day. Be reasonable and wait at least a month for perceptible improve-

Few women have the necessary time to follow the elaborate instructions generally given by those who pose as correctors of defects, however much they may yearn for beauty. splendid results may be obtained from five and ten minute exercises with no apparatus but a table. The movements are five in number and are to develop the chest and bust, to make the arms round and full, to give firmness and symmetry to the legs, poise and grace to the body and make the waist small and pliable. The entire five are done each day, in the few minutes allotted to physical exercise.

There need be no gymnasium suit, for as long as the lod; is loosely clothed nothing more is needed. The woman who sleeps in pajamas has the best of it, for they are better than a night dress although that garment need not stand in the way of your beauty work. The table you use must rest against the wall and be heavy enough to stand some strain. Let about three feet intervene between it and your body, bend forward till your hands touch the edge, grasp it firmly and continue to bend till the chest touches it and the arms are bent. Then slowly push back till the arms straighten, and repeat five times only t the beginning.

A great deal of time is wasted in spasmodic work, fifteen minutes or a half hour today and nothing for two days. There is no advancement under such a system. Progress is checked in another way, by working to the point of fatigue and often beyond it. Unless you can finish your exercise with a feeling of renewed strength and interest, you are throwing away time that might be put to better use.

New Face Veils.

The newest of the face veils are so sheer that it will be necessary to purchase a more liberal allowance of them than heretofore. There is nothing which will give such an air of genteel poverty to even the most successful costume as a veil which has lost its freshness. The various periodicals ostentatiously devoted to woman's interests from time to time give directions how to freshen an old veil, but the result of following such instruc-tions is pretty nearly always loss of time, loss of the veil (such as it was), and only too often loss of temper as The old veil is seldom of ever worth the effort of refurbishing.

Velvet Walking Costume.

An attractive short walking costume of black velvet has a skirt gored to fit the figure and in the back are underlying plaits, and scanter ones in the center fronts are pressed in and secured invisibly, while down each side are rows of small old silver buttons. The blouse closes with double rows of buttons to match the skirt and the sleeves are plaited and held in place by the buttons. The blouse is collarless and trimmed with several rows of silk braid.

Long coats and short coats are both n fashion. A short coat with basque effect at the back, with jacket fronts and wide belt, is thought very smart. The sleeves are ful, in bishop shape, with rows of shirring at the top. The skirt is trimmed with bias bands of the material, rows of tucks and a touch of contrast in narrow straps of velvet fastened with bright buttons.

THE MILLIONAIRE

- A Storiette-

Before I took the position as butler for Sir Ethelbert Tracy I had been a keeper in Portland prison. If I had been there this story would probably have had a different ending. Sir Ethelbert was the owner of a large estate, but he was not what we consider rich nowadays, and every year his fortune grew smaller.

He had a daughter, an unusually pretty girl of 20. Madge, as her name was, was adored by all the servants for her kind and friendly manners, even toward the humblest of us, but there was another who adored her, too-a young man from London, Vaine, who had just been admitted to the bar. Miss Tracy was as much in love with him as he with her, though, of course, she did everything not to

But Gerald Waine was poor, and his prospects as a young lawyer without clients were not very promising, so when he asked Sir Ethelbert for his daughter's hand the old man fatly refused. He had other plans for his daughter-cnly a millionaire would be considered by him.

After that day the young people were not allowed to see each other, but their love did not grow less strong. Shortly afterward Sir Ethelbert went to Lendon, where he met a certain Gregory Wagstaff, a man of 49, who was said to be many times a milionaire. The papers were full of stories of his wonderful luck. A few years before, he had left England for South Africa, where he had discovered an enormously rich gold mine, and now his income was said to be fabu-

The next we heard of Wagstaff was that he had become engaged to Madge Tracy. I was very much surprised at this, as I was sure that she still loved Gerald Waine, but there was no doubt as the engagement had been announced in the society columns of all the London papers.

A few weeks afterward Sir Ethelhert was to give a large dinner party in honor of his prospective son-in-law and I was called to London to take charge of the arrangements.

The evening came and all London ociety was present. Gregory Wagstaff was seated at Sir Ethelbert's right at the table. He was very tall and his hair and whiskers were sprinkled with gray. The moment I saw him the thought struck me that his face was familiar. Once when I filled his glass he looked up, and when his eyes mot mine I was absolutely sure that I had seen him somewhere, but though I tried hard I could not remember

'What do you mean?" "I will tell you. The first time ! saw Mr. Wagstaff I knew I had met him before, but could not remember where. Now I know it-it was in Portland Prison."

"In Portland Prison?" "Yes; I was a keeper and he was a 'Are you sure?" he exclaimed.

"Positively; His name is not Wagstaff, but Daniel Hand. He was formorly one of the most dangerous counterfeiters in England and was sentenced to five years in Portland." Gerald Waine hired a detective, and

in less than a week we knew all about Miss Madge's intended husband. We found out that not only had he been a counterfeiter before, but we discovered that he was even then getting ready to pass a large lot of counter feit bank notes which he had printed in a house in the East End. The story of his millions was all invented by him, and three days before the day set for the wedding he was arrested.

A year afterward Gerald Waine married Miss Madge, and the same I led the judge. Emma Perkins to the altar.

MANY CHANCES.

In the Electrical Field For the Young

Man of To-Day.

Looking over some of the successes in the electrical field in and around Chicago and over some of the possibilities of the future in this country to ward the perfecting of the science, well-known authority on the strictly commercial end" of electricity says:

"A few years more will see the development of a third and better pre pared generation of electrical experts and it is safe to say that they will be the result of a combination of a practical training, thoroughly mixed with a theoretical education.

This authority admits that much of the knowledge in the field to-day has been acquired in the school of "hard knocks," yet out of 100 men who are at the top of the electrical engineer's art in Chicago at this time, he has pre pared a striking list bearing on their ages and their salaries.

The average age of these men 33½ years, the extremes running from 27 years to 45 years, and indicating that the business is in charge of young men. At 27 years old the young man is worth \$2,170 a year, increas ing until at 38 years old the average salary is \$4,000. In groups, five of the one hundred men have salaries of more than \$10,000 a year; nine have incomes between \$5,000 and \$10,000 sixty-six have incomes between \$2,400 and \$5,000, and twenty have incomes under \$2,400. To these 100 men se lected the tabulator says that at least 100 more in Chicago should be added who will average quite as high, thus giving 200 men to Chicago in electrical engineering with salaries \$3,440 annually.

An interesting classification has been made of these first 100 men, showing their lines of endeavor. For instance it is shown that seven salesmen in the business average within \$100 a year of the editors and professors. This table shows: Average Average

"We took in \$1,100,000," said Wm. F Miller, of the famous Franklin Syndicate, when released from prison, "Of that sum we paid back to subscribers \$650,000. That leaves \$450,000. Of this sum Schlessinger fled to Europe with \$175,000. They never caught Schlessinger, and he died in Baden-Baden from high living. The creditors seized \$25,000 when the offices of the syndicate were raided. Ammon got the balance, or \$250,000. I had a couple of thousand, but that was spent in my lawsuits.

"Ammon's quarter of a million was in a certificate of deposit of \$100,000. Government bonds for \$44,000, a check for \$10,000, \$30,500 cash in bank, government bonds for \$55,000 cash in bank, government bonds for \$55,000 purchased through N. W. Harrison & Co., and New York Central bonds

"Why did you part with Ammon?" "I made up my mind that I had suffered enough for him, and then he re fused to make good a proposal by which I was to get half of the money withheld from the creditors." said Miller. "It has been said that I turned on Amnion because he refused to pay my wife and child the money that he had promised for their support. That is untrue. I cut off that source of income by testifying against Ammon. "When the bubble burst, Ammon

In his report to the Legislature, Franklin Dye, secretary of the State Board of Agriculture, will present a recommendation that is at least unique. Cost of Pork Production.

The cost of producing pork depends upon the kinds of foods used. Experiments made demonstrate that by feeding corn meal the cost of one pound of pork was 4.3 cents, requiring 5.3 pounds of meal. The same amount of shorts, consting 3.7 cents, produced the same increase, and 3.3 pounds of meal and shorts gave the same results. The cost also depends upon the prices of the foods.

CRIME OF SUTTEE.

Cases of Widow Burning Are Extremely Rare in India.

British law has stamped out many cruel and barbarous customs and the crime of suttee, or widow burning, is usually included among the number. Occasionally, however, cases occur. An authenticated instance is reported from Behar, one of the districts of industry.
